The Functions of Consciousness

A Workshop Presented by
NYU's Center for Mind, Brain, and Consciousness

What does consciousness *do*?

This workshop will bring together philosophy, neuroscience, psychology, and more to explore the functions that conscious experience facilitates in different kinds of biological and artificial systems.

Speakers

Marisa Carrasco (NYU)

Axel Cleeremans (University of Brussels)

Dylan Ludwig (NYU)

Matthias Michel (MIT)

Myrto Mylopoulos (Carleton)

Joshua Shepherd (University of Barcelona)

Monday, May 12th, 2025 ~ 5 Washington Place, Room 202

Registration is free but required. Register here:
