Tübingen International Summer School 2014 is a joint venture of FORUM SCIENTIARUM and the Werner Reichardt Centre for Integrative Neuroscience (CIN) at the University of Tübingen.

This summer school is aimed at advanced undergraduate students and graduate students working in neurobiology, neuroscience, psychology, philosophy, and other relevant disciplines.

Board and lodging (in double rooms) will be provided. There are no participation fees to be paid, although traveling costs and beverages have to be covered by the participants.
