MET4CE: What Method for Conceptual Engineering?

@

CZECH ACADEMY OF SCIENCES - INSTITUTE OF PHILOSOPHY  
PRAGUE (CZE) | THURSDAY AUGUST 8, 2019 | 9.00-16.15

---

Organized by Manuel Gustavo Isaac

**C**ONCEPTUAL ENGINEERING is a fast-moving research program in philosophical methodology. Its main goal is to deliver a method for assessing and improving our representational devices at large. The MET4CE Symposium will provide a platform for critically discussing the conditions, the possibility, and the limits of developing such a methodological framework for conceptual engineering.

### Program

09.00-09.30	<b>Manuel Gustavo Isaac (University of Barcelona):</b> “Broad-Spectrum Conceptual Engineering”
09.30-10.00	<b>Joey Pollock (University of Oslo):</b> “Conceptual Engineering and Semantic Control”
10.00-10.30	<b>Steffen Koch (Ruhr-University Bochum):</b> “On Two Kinds of Conceptual Engineering and their Methodological Counterparts”
11.00-11.30	<b>Delia Belleri (University of Vienna):</b> “Downplaying the Topic-Change Objection to Conceptual Engineering”
11.30-12.00	<b>Mark J. Pinder (Open University):</b> “Concepts and Replacement: What Should the Carnapian Model of Conceptual Re-Engineering Be?”
12.00-12.30	<b>Moritz Cordes (University of Greifswald):</b> “The Methodological Tradition of Explication”
14.00-14.30	<b>Patrick Allo (Free University of Brussels):</b> “Conceptual Engineering in the Philosophy of Information”
14.30-15.00	<b>Georg Brun &amp; Kevin Reuter (University of Bern):</b> “The Common-Sense Notion of ‘Truth’ as a Challenge for Conceptual Re-Engineering”
15.15-15.45	<b>Lieven Decock (Vrije Universiteit Amsterdam):</b> “Varieties of Conceptual Change: The Evolution of Color Concepts”
15.45-16.15	<b>Esa Díaz-León (University of Barcelona):</b> “The Semantic Account of Slurs, Appropriation, and Meta-linguistic Negotiations”
