

INTERNATIONAL ADVANCED SEMINAR IN PHILOSOPHY OF MEDICINE

June 20-21-22, 2013

Paris

Topic: "Unity and autonomy in philosophy of medicine"

Scientific provisional program (detailed program below):

- 5 senior talks
- 22 early-career researchers talks
- 3 thematic workshops organized by 3 senior researchers and 3 Phd students

Time and Place: June 20-21-22, 2013 – Centre Paris 1 Panthéon-Sorbonne (room 1)

Co-organized by the following research centers:

- the Institut d'Histoire et de Philosophie des Sciences et des Techniques, Université Paris 1 Panthéon-Sorbonne / CNRS / ENS
- the Department of History and Philosophy of Science, University of Pittsburgh
- the Center for Humanities and Health, King's College,
- the European School of Molecular Medicine, in collaboration with the research group in Biomedical Humanities at the European Institute of Oncology, Milan
- the Institute for the History, Philosophy and Ethics of Medicine, Johannes Gutenberg University

With the sponsorship of:

- CNRS
- Université Paris 1 Panthéon-Sorbonne
- Collège des Ecoles Doctorales de l'Université Paris 1 Panthéon Sorbonne
- Region Ile de France (08.10.18.18.18)

Registration:

- Participation to the IASPM is free of charge but there are a limited number of participants and registration is mandatory. So, please register as soon as possible.
- If you are interested in attending the conference, registration is now open on the website of the IASPM: <http://iaspm.sciencesconf.org/registration/index>
- Registration is not required for selected speakers.
- Attendance to the thematic workshop is only for the selected speakers.

Provisional Scientific program: “Unity and Autonomy in philosophy of medicine”

JUNE 20		
8h30-9h00	Anne Fagot-Largeault Jean Gayon	Welcoming participants and opening speeches
9h00- 12h40	Session 1: Are there specific epistemological issues in clinical medicine?	
9h00-9h40	Norbert Paul	Preliminary remarks on uncertainty, contingency, arbitrariness and other commonly neglected epistemological impairments of clinical problem solving
9h40-10h20	Armand Dirand	Elements of critical reflection upon uncertainty in medicine
10h20-10h40		<i>Coffee break</i>
10h40-11h20	Chris Blunt	Divided we stand; united we fall – the problems of particular patients in public health, epidemiology and health policy
11h20-12h00	Nicholas Binney	Using integrated history and philosophy to inform diagnostic medicine: the case of heart failure
12h00-12h40	Ashley Kennedy	Differential diagnosis: what counts as evidence?
12h40-14h30		<i>Lunch</i>
14h30 -17h30	Session 2: How history, sociology and ethics can influence epistemology of medical knowledge	
14h30-15h10	Giovanni Boniolo	From classical medicine to molecular medicine: only a problem of methods?
15h10-15h50	Stephanie Van Droogenbroeck	Alternative experimental philosophy meets philosophy of medicine: where sociology has never been before
15h50-16h10		<i>Coffee break</i>
16h10-16h50	Helene Richard	Analysis of the concept of “intrauterine patient”: history, ethics and epistemology at the crossroads
16h50-17h30	Silvia Camporesi	Adults seeking prescriptions for cognitive stimulants under the rubric of ADHD: a case study in the ‘unity and autonomy’ of Philosophy of Medicine within the Medical Humanities

JUNE 21		
8h30-13h00	Session 3: Can and should philosophy of medicine free itself from philosophy of biology?	
8h30-9h10	Maël Lemoine	Part, appendage, twin science: what is pathophysiology to physiology?
9h10-9h50	Barthélémy Durrive	In what sense are the clinical concept of function and its philosophical rendering “specific”?
9h50-10h30	Jonathan Sholl	Rethinking the Biology-Medicine relation via Phenotypic Flexibility and Robustness
10h30-11h00		<i>Coffee break</i>
11h00-11h40	Pierre-Luc Germain	Symptoms in vivo and in vitro – cellular reprogramming between biology and medicine
11h40-12h20	Gladys Kostyrka	Fighting infectious diseases: how an ecological vision of disease may inform biomedical and therapeutical strategies?
12h20-13h00	Lydia Du Bois	Pathology in context – response to Kingma
13h00-15h00		<i>Lunch</i>
15h00-18h00	Session 4: Which methodological approaches for philosophy of psychiatry?	
15h00-15h40	Derek Bolton	Conceptualizing the medical gaze: definitions of disorder in the main psychiatry texts
15h40-16h20	Yazan Abu Ghazal	Schizophrenia or the detours of the history of psychiatry: perspectives from the German psychiatry in the last third of the nineteenth century.
16h20-16h40		<i>Coffee break</i>
16h40-17h20	Kathryn Tabb	Psychiatric objects in research and practice: introducing the RDoc
17h20-18h00	Norman Poole	Meaning and meaninglessness in psychiatric disorders

JUNE 22		
9h00-15h50	Session 5: How does medicine combine different types of evidence and different types of explanations?	
9h00-9h40	Peter Machamer	Understanding multiple mechanisms in medicine
9h40-10h20	Jonathan Fuller	Science, Argument and Clinical trials
10h20-10h40		<i>Coffee break</i>
10h40-11h20	Hajimé Fujimori	Radical transformation of Chine traditional medicine in Japan – Epistemology in East-Asian traditional medicine
11h20-12h00	Marco Annoni	The myth of placebo additivity: taming the efficacy paradox in RCT
12h00-12h40	Jennifer Bulcock	The status of mechanistic evidence in EBM
12h40-14h30		<i>Lunch</i>
14h30-15h10	Marie Darrason	Mechanistic and topological explanations in medicine – the case of Network Medicine
15h10-15h50	Lauren Ross	Dynamical models: a type of mathematical explanation in neuroscience and medicine
15h50-16h30	Lara Keuck	Abstracting and Abstractions in the Medical Science
15h50-16h10		<i>Coffee break</i>
16h50-18h15	Three parallel thematic workshops co-organized by Smaïl Bouaziz, Elodie Giroux, Marion Le Bidan, Alain Leplège, Michel Morange, Hidetaka Yakura: <ul style="list-style-type: none"> - Health and disease concepts: is there still any relevance of their philosophical analysis? - Plurality of explanatory schemes in medicine - Knowledge and practice in medicine 	
18h15-18h30	Maël Lemoine	Closure speech
