# DLSU - FEU 1ST ICPE 2022 CALL FOR ABSTRACTS

## OVERVIEW

Far Eastern University's Institute of Education and De La Salle University-Manila's Department of Philosophy, in partnership with Southeast Asia Research Center and Hub (SEARCH) and Samahan ng mga Lasalyanong Pilosopo (PILOSOPPO), will host the First Annual International Conference on Philosophy of Education from April 21-23, 2022.

For the First Annual DLSU-FEU ICPE, we focus on philosophical dialogues on education as we look into ethics, epistemologies, and critical pedagogies highlighting issues of the global south. The discussions in philosophy of education have been dominantly leaning on Western issues and frameworks, thus, issues and contexts of the global south are underdiscussed. Joining the efforts of indigenous, post and neo-colonial, and critical scholars in education, the DLSU-FEU ICPE 2022 provides a platform for philosophers and educators alike to share their interpretative, reflexive, and critical take on educational practices, issues, and challenges in education.

In furthering the conversation, the DLSU-FEU ICPE 2022 raises questions on the purpose and nature of education, the oppressive nature of teaching and learning, hegemony of western education, indigenous education, power relations in teaching and learning, and issues on curriculum content.
